

OUR NEW SCHOOL

7/10/2011.

Indeed we have so many benefits in our class. Our classroom has really changed after being renovated. There is a big difference from how it was and how it looks now. Our class before was so old that even when it rained you could hear a drop of water. We were really suffering especially those times when it was raining cats and dogs. After the renovation, we now have a good classroom.

So many changes have occurred in our class. It is now made of blocks. The blocks have been coloured and decorated with different types of colours. The floor has been cemented and on the roof, there is a ceiling-board. We also have glass windows. We used to sit three pupils but now every pupil has his and her own chair with locker. There was a lot of copying but now no pupil can copy his or her ally. We are now-days locking our lockers with pad-locks.

We also have a library in school. Many pupils always go to read in the library. In the library, there are different types of books like text books and storybooks. For me, I have really learned a lot because the books in the library have really helped me in knowing more things. I would like more textbooks e.g. the QA, Golden tips and the High fliers to be added in the library so that we, as the class eight candidates can achieve better grades.

Lastly, I am giving my thanks to Mr. Charles for he has made our school the best. If not for him, we could not have seen all the nice things that have been made in our school. Because of him, our school has now developed and

even resembles a secondary school. For me, when I grow up, I would like to travel into other villages and develop other schools like Mr. Charles did to ours.

Yours faithfully,

Mwakuleghwa Risper.  
CLASS 8 CANDIDATE.
